Notes (other):

Are there any financial factors that may affect your medium / long term planning i.e. 5 years or more, such as pending expenses e.g. moving house, home improvements, extensions, major holidays, weddings? Yes No

If yes, please provide details and estimated costs:

What is your investment risk profile? - See details described below - Please tick one or more of the boxes. - If you wish feel free to specify a percentage.

<input type="radio"/> HIGH Risk	%	<input type="radio"/> MEDIUM Risk	%	<input type="radio"/> Risk Averse	%
This is taken to mean you are willing to accept a high level of risk in relation to your portfolio. You realise that such an approach may include investments in specialist sectors and products whose performance may be highly volatile. You also appreciate that certain high risk investments may not be readily realisable, as there may not be a ready market for the sale of such investments and that access to reliable data for valuing such investments may be restricted.		This is taken to mean that for medium to long-term investments, you will accept a broadly based approach which includes a proportion in equity based investments (stocks and shares). You are prepared to accept a degree of volatility in the value of your capital in return for the potential for good medium to long-term rewards.		Clearly, no risk at all is impossible, however, this is taken to mean you are cautious and dislike risk and are intolerant of volatility with regards to the underlying value of your capital. You prefer security of capital and predictable investments. You accept that this may result in low rates of return being earned on your portfolio. You also accept that interest returns from deposit based investments move up and down, and when compared to the rate of inflation may produce a poor real return.
